PATIENT POSITIONING SOLUTIONS

Hipac has been manufacturing healthcare products for over 30 years.

Our complete in-house design, manufacture and sourcing process means that we supply high quality products that will perform in the most demanding healthcare environments globally.

From custom made and one off items through to our in stock, off the shelf products, Hipac should be your front of mind partner of choice when it comes to patient positioning solutions and operating theatre accessories.

So, if you are looking for quality accessories and positioning devices that are guaranteed to stand the test of time, speak to one of our consultants today by phone on 1800 75 93 93 or contact us via email at info@hipac.com.au.

DELIVERING TAILOR-MADE SOLUTIONS FOR OVER 30 YEARS

Hipac has been manufacturing high quality healthcare products for more than 30 years. That is 30 years of experience that has brought about an extensive range of products that were specifically developed due to a strong demand from surgeons, nurses, technicians and clinical users, seeking high quality, well made operating theatre accessories and positioning devices, that were guaranteed to perform. Hipac's clients also needed cost effective solutions that could withstand years of use in demanding healthcare environments.

Consequently, Hipac now has an efficient in-house design, manufacture and sourcing process in Australia, so all our customers are assured of a quality product supported with great after sales service.

The reason Hipac stands apart from its competitors is the company's vision and ability to produce custom-made operating theatre

solutions in addition to a broad range of off-the-shelf products. Here is a company that prides itself on being able to produce one of a kind, made-to-measure items. This is because they understand that sometimes there is no such thing as a one-size-fits all solution. No two work environments are exactly the same, and every job presents its own unique opportunities and challenges.

Consider the advantages of carefully sourced and manufactured positioning solutions

Every product that Hipac supplies is either individually handcrafted from Australian sourced materials or imported from trusted suppliers, to meet our stringent quality standards. Importantly, each item is always designed to meet the end user's very specific needs and preferences. Whenever you order a piece of superior Hipac patient positioning equipment, you can be sure it will be:

- Designed to perfectly fulfill the purpose for which the product was devised, taking into account size, shape and composition of the equipment;
- Designed to meet whatever other specifications might be required [e.g. in terms of portability, adaptability, strength, infection control needs and/or suitability for use in sterile environments];

- Designed to help minimise the risk of accidents, injury or damage [i.e. we can devise ways to help address identified potential sources of risk].

Hipac's overall aim when creating or sourcing patient positioning equipment and operating theatre accessories is to provide something that is perfectly adapted for its environment and intended use. This makes things easier for the people who will be using it every day and - in turn - helping them to best meet the needs of their patients.

This is why Hipac should be your partner of choice when it comes to choosing a provider of patient positioning solutions where you work.

Hipac patient positioning solutions

- ✓ Made or sourced, using high quality medical-grade materials
- ✓ Carefully crafted to meet your specific needs and preferences
- ✓ Easy to use
- ✓ Highly durable
- ✓ Covered by Hipac's guarantee to stand behind all our medical products.

If you're looking for high-quality patient positioning solutions which harness the expertise of a company that's been satisfying customers for more than 30 years then speak to one of our consultants today.

Operating Theatre Table Clamps

OPERATING THEATRE TABLE CLAMPS

Operating theatre tables are fitted with side rails to which positioning equipment is attached. These rails range in size according to their make and origin. In order to achieve stable positioning, the correct sized clamp must be used.

Approximate rail sizes are as follows,

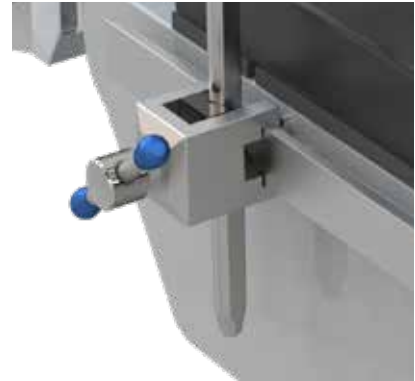

A Rails: 28 x 10mm, to suit American Side Rails, e.g. Skytron, Steris.

B Rails: 32 x 6mm, to suit British Side Rails, e.g. Eschmann

D Rails: 38 x 6mm, e.g. Denyer

E Rails: 25 x 10mm, to suit European Side Rails, e.g. Maquet, Trumpf

Rail sizes can be ascertained through reference to the Ezi-Gauge stored in the back cover of this brochure.

MULTI CLAMP

- Accepts up to size 17 round post.
- Accepts size 34 rectangular post.
- Stainless steel construction.

CODE:

113090	Multi Clamp to suit A Rail
113101	Multi Clamp to suit B Rail
113110	Multi Clamp to suit D Rail
113118	Multi Clamp to suit E Rail

CLAMP ON RAIL

- Clamp on rail to suit carbon fibre imaging board 111841, see page 63.
- Available in A, B, D or E rail attachment.

CODE:

113563	Clamp on Rail - A Rail
116916	Clamp on Rail - B Rail
116917	Clamp on Rail - D Rail
116918	Clamp on Rail - E Rail

TRACTION CLAMP

- To suit Amsco/Steris, 777 and Ortho Trax orthopaedic traction frames.
- Accepts up to size 16 round post and size 35 rectangular post.
- Stainless steel construction.

CODE:

112096	Orthopaedic Traction Clamp
136426	Accessory Clamp, Ortho Trax

112096

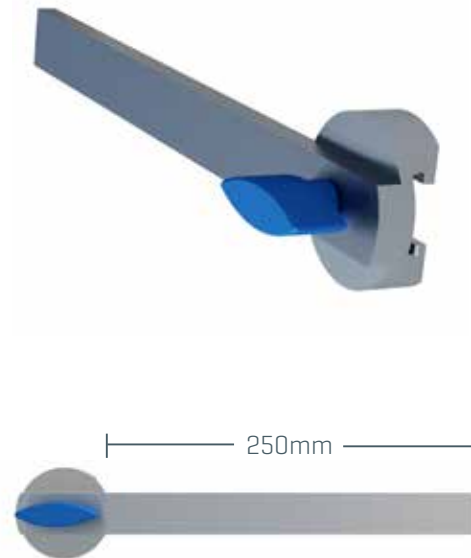

136426

SIDE RAIL EXTENSION CLAMP

- Side rail extension clamp extends the table rail by 250mm.
- Custom lengths available, contact Customer Care.
- Available to fit A, B, D or E table rails with A, B, D or E size extension
- Stainless steel construction.

CODE:

113097	Extension Clamp, to suit A Rail, A Size Extension
117002	Extension Clamp, to suit A Rail, B Size Extension
117003	Extension Clamp, to suit A Rail, D Size Extension
117004	Extension Clamp, to suit A Rail, E Size Extension
117005	Extension Clamp, to suit B rail, A Size Extension
113106	Extension Clamp, to suit B rail, B Size Extension
117006	Extension Clamp, to suit B rail, D Size Extension
117007	Extension Clamp, to suit B rail, E Size Extension
114674	Extension Clamp, to suit D rail, A Size Extension
117008	Extension Clamp, to suit D rail, B Size Extension
113115	Extension Clamp, to suit D rail, D Size Extension
117009	Extension Clamp, to suit D rail, E Size Extension
117010	Extension Clamp, to suit E rail, A Size Extension
117011	Extension Clamp, to suit E rail, B Size Extension
117012	Extension Clamp, to suit E rail, D Size Extension
113123	Extension Clamp, to suit E rail, E Size Extension

UNIVERSAL BAR CLAMP

- Accepts most brands of gas assisted stirrups.
- Accepts up to size 17 round post.
- Accepts size 33 and 34 rectangular post.
- Lightweight aluminium construction.
- Clamps to suit A size rails are direct-on where slots are fitted in side rails.

CODE:

115167	Universal Bar Clamp to suit A Rail
115699	Universal Bar Clamp to suit B Rail
115700	Universal Bar Clamp to suit D Rail
115701	Universal Bar Clamp to suit E Rail

STIRRUP CLAMP

- Suits most brands of gas assisted stirrups.
- Accepts size 33 rectangular post.
- Aluminium construction.
- Clamps to suit A size rails are direct-on where slots are fitted in side rails.

CODE:

113091	Stirrup Clamp to suit A Rail
113102	Stirrup Clamp to suit B Rail
113111	Stirrup Clamp to suit D Rail
113119	Stirrup Clamp to suit E Rail

Clamps to suit stirrups include, but are not limited to, stirrups with the following boot colours; red, yellow, pink, blue, grey, black, white and purple.

Operating Theatre Table Clamps

LOCK LEVER, RADIAL, DIRECT-ON CLAMP

- Direct-on with lock lever.
- Rotatable with lock lever handle for fast secure fixation.
- Accepts up to size 17 round post.

CODE:

117184	Radial Rail Clamp to suit A Size Rails
117185	Radial Rail Clamp to suit B Size Rails
117186	Radial Rail Clamp to suit D Size Rails
117187	Radial Rail Clamp to suit E Size Rails

LOCK LEVER NON-ROTATING CLAMP

- Non-rotating rail clamp.
- Direct-on, lock lever.
- Accepts size 17 round post with a flat section.

CODE:

136523	Lock Lever Clamp to suit A Rails
136526	Lock Lever Clamp to suit B Rails
139854	Lock Lever Clamp to suit D Rails
136527	Lock Lever Clamp to suit E Rails

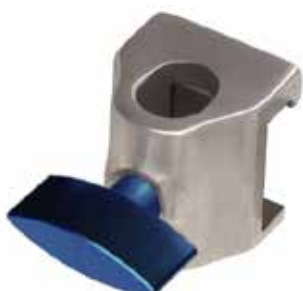

ROUND BAR CLAMP

- Accepts up to size 16 round post.
- Stainless steel construction.
- Clamps to suit A size rails are direct-on where slots are fitted in side rails.

CODE:

113086	Round Bar Clamp to suit A Rail
113099	Round Bar Clamp to suit B Rail
113117	Round Bar Clamp to suit E Rail

RECTANGULAR BAR CLAMP

- Accepts size 31, 33 and 34 or 31 and 34 rectangular post..
- Stainless steel construction.
- Clamps to suit A size rails are direct-on where slots are fitted in side rails.

CODE:

137899	Rectangular Bar Clamp to suit A Rail, Size 31 and 34
137900	Rectangular Bar Clamp to suit A Rail, Size 33 and 34
113100	Rectangular Bar Clamp to suit B Rail, Size 31

137899 & 137900

113100

A SIZE UNIVERSAL ROUND BAR CLAMP

- Universal round bar clamp to suit A rails are direct-on where slots are fitted in side rails.
- Accepts up to size 16 round post.

CODE:

113087	Universal Round Bar Clamp to suit A Rail
--------	--

UNIVERSAL ROTARY CLAMP

- This clamp can be used on theatre tables of multiple rail sizes.
- Suits A, B and E size table rails.
- Accepts up to size 16 or 17 round post.

CODE:

113662	Universal Rotary Clamp to suit A, B and E Rails, up to Size 16
139875	Universal Rotary Clamp to suit A, B and E Rails, up to Size 17

ROTARY CLAMP

- Accepts sizes 15 or 16 round post.
- Stainless steel construction.
- Clamps to suit A size rails are direct-on where slots are fitted in side rails.

CODE:

113092	Rotary Clamp A Rail, Size 15
113093	Rotary Clamp A Rail, Size 16
113103	Rotary Clamp B Rail, Size 15
113104	Rotary Clamp B Rail, Size 16
113112	Rotary Clamp D Rail, Size 15
113113	Rotary Clamp D Rail, Size 16
113120	Rotary Clamp E Rail, Size 15
113121	Rotary Clamp E Rail, Size 16

RADIAL BI CLAMP

- Accepts up to size 17 round post.
- Clamps to suit A size rails are direct-on where slots are fitted in side rails.

CODE:

113095	Radial Bi Clamp to suit A Rails
113105	Radial Bi Clamp to suit B Rails
113114	Radial Bi Clamp to suit D Rails
113122	Radial Bi Clamp to suit E Rails

CLARK SOCKET

- Accepts up to size 17 round post.
- Stainless steel construction.
- Direct-on where slots are fitted in side rails.

CODE:

113094	Clark Socket to suit A Size Rail
--------	----------------------------------

CURVED LATERAL SUPPORT

- Adjusts vertically and horizontally.
- Requires one clamp for mounting.
- Requires Pad 112164.
- Pad: 200[W] x 180mm[H]

CODE:

112160	Curved Lateral Support Size 31

112164	Curved Lateral Support Pad

Pad: 112164

Rectangular Bar
Clamp: See page 8

STRAIGHT LATERAL SUPPORT

- Adjustable vertically and horizontally.
- Requires clamp, for mounting.
- Requires pad 112172.
- Pad: 130[L] x 60[W] x 250mm[H].
- Stainless steel construction

CODE:

- 112171 Straight Lateral Support, Size 34.
 112172 Straight Lateral Support Pad

Pad: 112172

Universal Bar Clamp:
See page 7

STRAIGHT LATERAL SUPPORT SHORT PLATE

- Adjustable vertically and horizontally.
- Requires clamp, for mounting.
- Requires pad 115018.
- Pad: 130[L] x 60[W] x 170mm[H].
- Stainless steel construction.

CODE:

- 136422 Straight Lateral Support, Short Plate, Size 34.
 115018 Straight Lateral Support, Short Plate Pad

Pad: 115018

Universal Bar Clamp:
See page 7

WIDE LATERAL SUPPORT

- Adjustable, with two pad types.
- Requires clamp, for mounting.
- Includes one flat and one shaped pad.
- Pads can be rotated to meet patient's curvature.
- Pad: 195[W] x 210mm[H]

CODE:

- 117202 Lateral Support Wide Rotatable
 139575 Wide Lateral Support Pad, Curved
 139558 Wide Lateral Support Pad, Flat

Universal Bar Clamp:
See page 7

Unsure of your rail or post sizes?

Use the Ezi-Gauge stored in the back cover of this brochure to correctly identify the size of your device.

Alternatively, call Hipac Customer Care on +61 2 4823 0000 or 1800 759 393

Body Supports

TUBULAR BODY SUPPORT

- Simple vertical and horizontal adjustment.
- Size 16 vertical post.
- Requires one clamp, size 16.
- Requires pad 112170.
- Pad: 125[dia] x 300mm[L].

CODE:

112169 Tubular Body Support Size 16 Post
112170 Tubular Body Support Pad

Pad: 112170

Universal Bar Clamp:
See page 7

VERTICAL SUPPORT

- Adjustable vertically.
- Requires one clamp, size 16.
- Requires pad 112179.
- Pad: 90[dia] x 280mm[L].

CODE:

112178 Vertical Support Size 16 Post
111765 Vertical Support Pad

Pad: 112179

ROUND LATERAL SUPPORT

- Vertical, horizontal and rotational adjustment.
- Seamless pad, included.
- Requires one clamp, size 17.
- Pad: 82mm [dia].

CODE:

119912 Round Lateral Support
139559 Round Lateral Support Replacement Pad.

Universal Bar Clamp:
See page 7

RIGHT ANGLE LATERAL SUPPORT

- Slips under 50mm table or trolley mattress, and is secured by the patient's body weight, requiring no clamps to hold the support in place.
- Requires pad 112228.
- Pad: 270[L] x 100[W] x 360mm[H].

CODE:

112227 Right Angle Lateral Support
112228 Right Angle Lateral Support Pad 100mm

Pad: 112228

NARROW ROTATABLE LATERAL SUPPORT

- Vertical, horizontal and rotational adjustment.
- Narrow support, with curved pad: 85[W] x 180mm[H].
- Can be used as shoulder rests when purchased as a pair.
- Requires one clamp size 17.

CODE:

117201 Lateral Support, Rotatable
139560 Rotatable Narrow Lateral Support Pad

Universal Bar Clamp:
See page 7

ROTATABLE SHOULDER RESTS, PAIR

- Designed to prevent patient slide when in Trendelenburg.
- Includes two pad types - concave and straight, 80(W) x 185mm(H).
- Requires two clamps, size 17.

CODE:

- 139556 Rotatable Shoulder Rests, Pair, Pads Included
 139619 Rotatable Shoulder Rests Replacement Pad, Concave, Pair
 139561 Rotatable Shoulder Rests Replacement Pad, Flat, Pair

Universal Bar Clamp:
See page 7

ADJUSTABLE SHOULDER RESTS, PAIR

- Includes direct-on seamless pads.
- Requires two clamps.

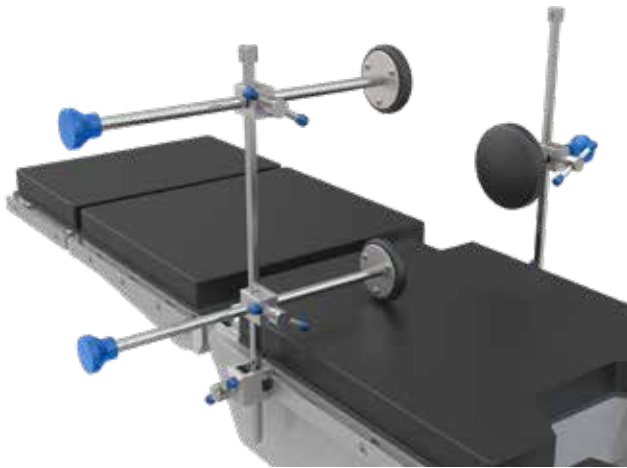

CODE:

- 139102 Adjustable Shoulder Rests Size 33, Pads Included, Pair
 139103 Adjustable Shoulder Rests Size 34, Pads Included, Pair
 139773 Adjustable Shoulder Rest Replacement Pad, Single

Universal Bar Clamp:
See page 7

Debello Lateral Hip Positioner Set

The Debello Lateral Hip Positioner is a patient positioning device that assists the surgical team to correctly position patients for hip surgery, while providing improved access around the patient and operative site.

This is achieved by the ability to reduce the length of the lateral bars for larger patients without limiting the use of the device to support smaller patients.

The support incorporates three seamless, vinyl covered foam pads designed to provide reduced risk of pressure injury when compared with traditional hip positioning pads.

Small pad size: 100[dia] x 30mm[W]

Large pad size: 145[dia] x 40mm[W].

- Assists surgical team correctly position patient for hip surgery.
- Improves access around patient and operative site.
- Integrated lateral end stops.
- Replaceable seamless vinyl covered foam pads, reducing the risk of pressure injury.
- Requires two clamps, size 16.

Universal Bar Clamp:
See page 7

CODE:

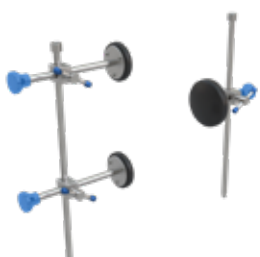

137156	Debello Lateral Hip Positioner

positioning product you
require.

PRONE POSITIONING FRAME, CLOWARD SADDLE

- Designed for procedures requiring genupectoral positioning
- Requires knee rest 139418

CODE:

139417 Cloward Saddle Prone Positioning Frame

KNEE REST TO SUIT CLOWARD SADDLE

- 457mm knee rest.
- Designed for use in conjunction with the Cloward saddle prone positioning frame.
- Requires two clamps size 33.

CODE:

139418 Knee Rest, 450mm
139521 Knee Rest Pad, 50mm Comfort Series
139522 Knee Rest Pad, 75mm Comfort Series

Universal Bar Clamp:
See page 7

PROCTOLOGY ATTACHMENT FRAME

- Adjustable knee rest designed for procedures requiring genupectoral positioning.
- Safe working load of 200kg, maximum patient weight of 325kg.

CODE:

139520 Proctology Attachment Frame
139562 Proctology Frame Replacement Pads - Upper Section
139563 Proctology Frame Replacement Pads - Lower Section

ADJUSTABLE BUTTOCK SUPPORT

- Adjusts to fit most tables.
- Lockable width adjustment: 535-600mm.
- Includes replaceable vinyl covered foam pad.
- Requires two clamps size 16.
- Prevents patient slide in reverse Trendelenburg Lithotomy.

CODE:

138486 Buttock Support Adjustable
117555 Buttock Support Replacement Pad

Rotary Clamp size 16:
See page 9

SINGER STARR STACKER LATERAL SUPPORT SYSTEM

The Singer Starr Stacker is a table accessory designed for procedures that require a patient to lie in the lateral or semi-lateral position. In these positions, the arms and legs are placed one over the other. The Singer Starr Stacker is an efficient and safe alternative to the current practices used to support a patient's arms and legs during these procedures.

Use armboard sets in conjunction with Wide Armboard 111395, see page 36.

STANDARD ARMBOARD PAD PAIR

- 111707 Gel Roll 505[L] x 150[W] x 150mm[H]

GEL GRADUATED THORACIC POSITIONER

- This graduating positioner can be used in many procedures where full chest extension is required.

CODE:

- 111713 Gel Thoracic Positioner 356[L] x 229[W] x 63mm[H]

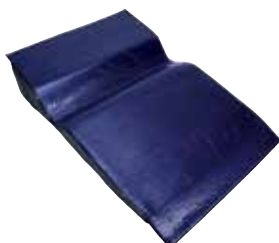

See page 76 for our complete range of gel products.

LATERAL POSITIONER WITH GEL

- Consists of two parts: a foam base and a gel pad overlay.
- Protects arm and shoulder in lateral positioning.

CODE:

- 111714 Gel Lateral Positioner Pad 711[L] x 495[W] x 152mm[H]

GEL ROLL COVERS

- Held in place by hook and loop.

CODE:

- 111715 Gel Roll Cover, Hook and Loop, 430[L] x 300[W] x 13mm[H]
- 111716 Gel Roll Cover, Hook and Loop, 457[L] x 457[W] x 13mm[H]

Body Supports

Vacuform® Space System

The optimised, advanced surgical bedding concept.

MicroSpace
filling in the
evacuated state

Conventional
filling in the
evacuated state

The secret of perfected adaption to the body by VACUFORM 2.0 surgical mattresses is microballs of Styrofoam, stabilised by vacuum to give a lasting, completely supportive form. Reducing the diameter of the filler balls by a fifth enables significantly more precise adaption of the surgical mattresses to the body. The new MicroSpace system significantly increases the feeling of physical comfort for the patient compared to conventional fillings.

Particularly during time-consuming operations or with patients who are older and have poor skin condition, there is a risk of pressure points leading to acute decubital pressure injuries and paresis (paralysis from nerve damage). The individual, ergonomic body adaptation of VACUFORM surgical mattresses effectively prevents such damage. The support pressure of the patient is evenly distributed, and thus minimised. The microcirculation needed by the skin is unaffected and the patient has a noticeable feeling of lightness and warmth.

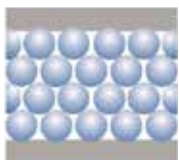

- Further optimised pressure relief.
- "Weightless" feeling [like a water bed] despite stable immobilisation.
- Surface almost untextured.
- Latex-free, radiolucent and suitable for MRI and CT.

- 139822 Wide Armboard Pad, Gel, 13mm

Pad: 111396, 111397, 139826

ELEVATING ROTATIONAL ARMBOARD WITH LOCK LEVER CLAMP

- Elevating rotational armboard complete with lock lever rail clamp.
- Available to suit A, B, D or E size table rails.
- One hand operated ball joint lock release.
- Ball joint tilt of 38 degrees in any direction.
- Limitless rotational capability.
- Disc at base of vertical post prevents clamp from sliding off the post.
- Requires pad 114094, 620[L] x 170mm[W].

CODE:

- 111489 Gel Duraboard Pad
380[L] x 150[W] x 10mm[H]

GEL CONCAVE ARMBOARD PAD

- Contoured for multi direction support.

CODE:

- 111495 Gel Concave Armboard Pad,
530[L] x 150[W] x 50mm[H]
- 111496 Gel Concave Armboard Pad,
410[L] x 150[W] x 50mm[H]

GEL OVAL ULNAR/BRACHIAL PROTECTOR

- Protects elbow and is secured with hook and loop.
- Allows full view of arm.
- 400[L] x 152[W] x 13mm[H].

CODE:

- 111491 Gel Oval Ulnar/Brachial Protector

GEL ULNAR/BRACHIAL PROTECTOR

- Protects the forearm, wraps around the patients arm and secures with hook and loop.
- Helps to prevent from ulnar nerve damage when patients arms are tucked to their sides.
- 475[L] x 330[W] x 6mm[H]

CODE:

- 111490 Gel Ulnar/Brachial Protector

GEL HAND PROTECTOR WITH HOOK AND LOOP

- Encloses hand and secures with hook and loop straps.
- 152[L] x 203mm[W].

CODE:

- 114660 Gel Hand Protector with Hook and Loop

GEL ELBOW PAD

- Positions and cradles the elbow to relieve pressure.
- 85 [dia.] x 38mm[H].

CODE:

- 111494 Gel Elbow Pad

Anaesthetic Supports

TUBE HOLDER

- Impact resistant polycarbonate.
- Slotted to accept tubing.
- Supported under head section mattress.

CODE:

110992 Tube Holder
137623 Vertical Tube Holder

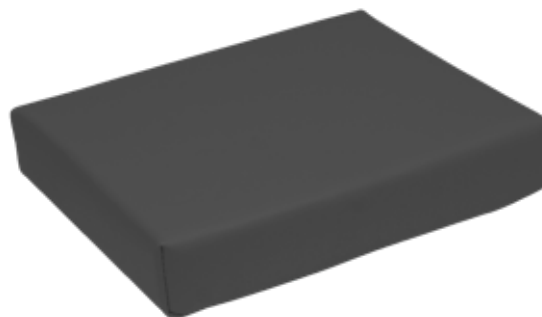

ANAESTHETIC PILLOW

- Vinyl covered foam with chemically sealed seams.

CODE:

111433 Anaesthetic Pillow
250[L] x 300[W] x 50mm[H]

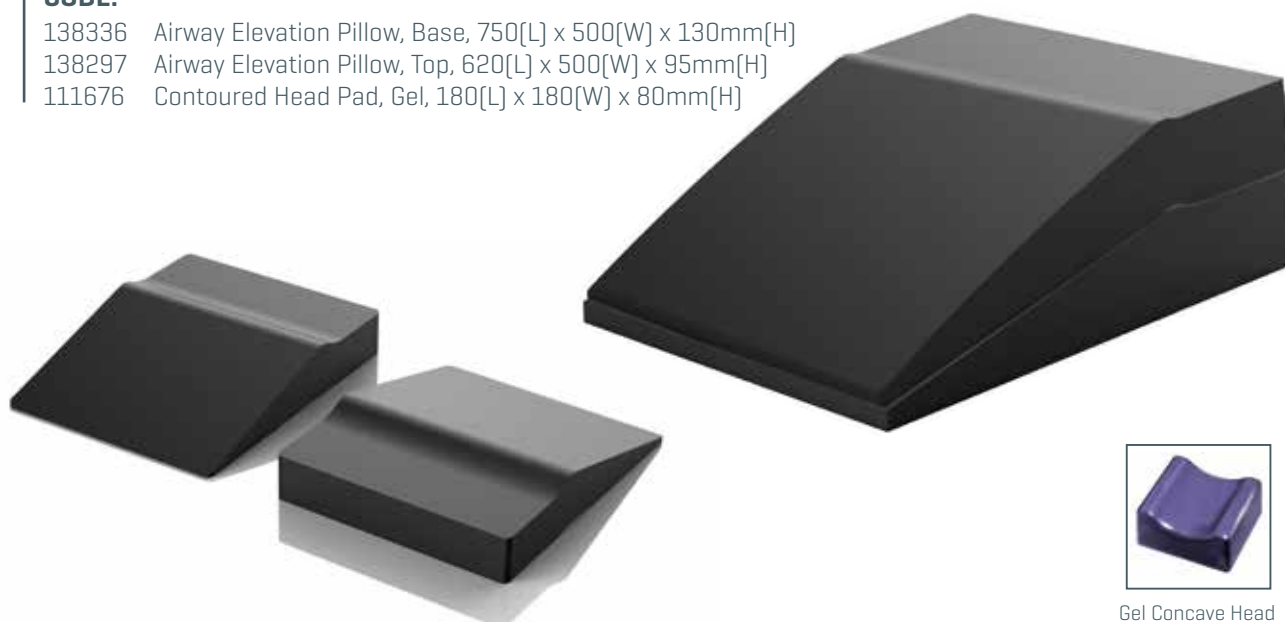

AIRWAY ELEVATION PILLOW

- Stackable design consisting of a base section and an optional additional top section for increased elevation.
- Designed to assist with airway management in larger patients.
- Provides stable patient positioning during surgery.
- Requires gel concave head pad 111676 or similar head support for correct positioning.
- Will require height adjustable armboard such as elevating rotational armboard long bar version, see page 37.

CODE:

138336 Airway Elevation Pillow, Base, 750[L] x 500[W] x 130mm[H]
138297 Airway Elevation Pillow, Top, 620[L] x 500[W] x 95mm[H]
111676 Contoured Head Pad, Gel, 180[L] x 180[W] x 80mm[H]

Gel Concave Head
Pad: 111676

PRONE ANAESTHETIC PILLOW

- Designed to provide support for prone positioning, allowing for safe positioning of intubated patients.
- Twin layered foam with soft vinyl cover.
- Provision for tubing.

CODE:

111424 Prone Anaesthetic Pillow, Vinyl Covered

DISPOSABLE ANAESTHETIC PILLOW

- Single use pillow reduces risk of cross contamination and eliminates costly and difficult cleaning processes.
- Twin layered foam.
- Provision for tubing.

CODE:

119620 Disposable Anaesthetic Pillow Carton/12

JAW ELEVATION DEVICE (JED)

- Designed to maintain an open airway in sedated or anesthetised patients without the need for airway instrumentation.
- Frees medical personnel from the need to hold the jaw manually in sedated or obtunded patients
- Reduces post-operative complications when left in place after a procedure.
- Non-invasive and easy to apply.
- JED comes with one set of disposable cups. Additional cups available, 30 sets per pack.

CODE:

117947 Jaw Elevation Device

117948 Disposable Cups for JED, Carton/30

ARTERIAL CANNULATION PAD

- 480[L] x 130[W] x 80mm[H].
- Seamless covered foam.

CODE:

120774 Arterial Cannulation Pad, Vinyl Covered

RHYS-DAVIES EXSANGUINATOR

- Inflatable cuff designed for use during limb exsanguination.

CODE:

136724 Rhys-Davies Exsanguinator

WINGED CARDIAC HEAD CAGE

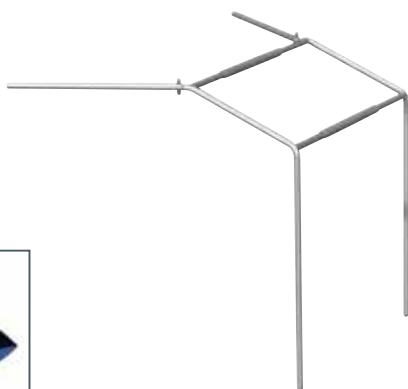

- Stainless steel construction.
- Adjustable width to suit various tables.
- Requires two clamps size 16.

CODE:

139430 Winged Cardiac Head Cage

Round Bar Clamp:
See page 8

LOCKABLE WINGED CARDIAC HEAD CAGE

- Stainless steel construction.
- Requires two clamps size 16.
- To suit Skytron operating tables, can be manufactured to suit most operating tables. Call with individual requirements.

CODE:

111425 Winged Cardiac Head Cage, Lockable

Universal Bar Clamp:
See page 7

**Custom Cardiac Head Cages can be manufactured to suit specific requirements.
Call Customer Care on 1800 75 93 93 or email info@hipac.com.au.**

ANAESTHETIC SCREEN SUPPORT

- Stainless steel construction.
- Requires pad 111430.
- Requires clamp, size 16.

CODE:

111428 Anaesthetic Screen Support Size 16

111430 Anaesthetic Screen Support Pad

Round Bar Clamp:
See page 8

Pad: 111430

FORM-A-SCREEN

- Flexible anaesthetic screen, shapes into any configuration.
- Requires two clamps size 16.

CODE:

111432 Form A Screen

Round Bar Clamp:
See page 8

DOUBLE STAND ISOLATION DRAPE SUPPORT

- Collapsible design to minimise required storage space.
- Weighted base to provide increased stability.
- Adjustable height and width.
- Height range: 1735 - 2355mm
- Width range: 4008 - 4808mm
- Heavy duty, robust design.

CODE:

119236 Isolation Drape Support, Double Stand

ISOLATION DRAPE SUPPORT

- Consists of three sections with clamps.
- Stainless steel and aluminium construction.
- Attaches to IV poles via mounting clamps, allowing for the height to be adjusted.
- Width: 3340mm.
- IV poles not included, see page 69.

CODE:

Clamp: 136895

ORTHOPAEDIC TRACTION FRAME

The Skytron orthopaedic traction frame brings flexible positioning and imaging accessibility to orthopaedic surgery. The system is uniquely designed for lower extremity and hip procedures and can be attached to Skytron 3500 and 3600 Series general purpose top slide surgical tables.

Constructed with carbon fibre leg spars, this system is ideal for use with imaging equipment and can easily be adjusted according to patient size and positioning requirements.

CODE:

REPLACEMENT ORTHO TRAX TRACTION BOOTS

CODE:

136131	Ortho Trax Orthopaedic Boot, Large, Pair
136132	Ortho Trax Orthopaedic Boot, Medium, Pair
136133	Ortho Trax Orthopaedic Boot, Small, Pair

KEY FEATURES

- Carbon fibre leg spars for easy imaging.
- Simple 'ski boot style' lightweight traction boots, supplied standard in 3 sizes.
- Product shadowing on the Storage trolley allows you to track and store all you Ortho Trax Orthopaedic Traction Frame components in one place.
- Leg assist device dampens table movement yet stays flexible to adjust with the table.
- 158kg patient weight capacity.

General Accessories

Hipac Anti-Fatigue Mats

Ergonomic comfort standing solution.

Hipac Medical Anti-Fatigue Mat

Hipac Medical Mats provide a superior comfort solution for surgeons, nurses and technicians who stand for long periods of time. The 20mm thick, patented gel and energy-return foam improves comfort, ergonomics and energy during and after procedures. They are easy to clean with a polyurethane top surface.

Surgical Stool Comfort Mat, energy return foam.

Hipac Medical Mats, Proprietary gel and energy-return foam.

Hipac Medical Surgical Stool Comfort Mat

An effective ergonomic solution for surgeons, nurses and technicians who are required to stand on a medical stool during long and strenuous operations. Available in a reusable or a one-time use, disposable stool mat. The deep-cushioned support and premium comfort of the Hipac Stool Mats is designed to mitigate foot, leg and back discomfort for increased productivity and focus during surgery.

Hipac Eco-Pro Anti-Fatigue Floor Mat

Hipac Eco-Pro Anti-Fatigue Floor Mat is the ultimate comfort solution, designed to prevent leg, foot and lower back discomfort.

Proven to reduce spinal compression and increase flexibility; increasing productivity and lessening aches, strains and work-related injuries.

Constructed from Polyurethane foam with bounce-back memory, this mat will never bottom-out, harden or wear down.

Ideal for:

- Operating rooms
- Radiology
- Medication dispensing stations
- Nurses stations
- Lab testing areas
- Pharmacy

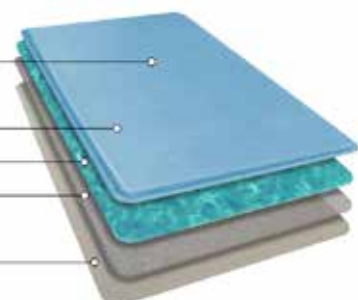

Columbia Blue top surface

Antimicrobial and antibacterial Cal 117 compliant

Gel core (1/2 inch)

Foam layer (1/4 inch)

Antimicrobial additive and enhanced traction for superior stability

HIPAC ECO-PRO FLOOR MAT

- Ultimate comfort solution designed to prevent leg, foot and lower back discomfort.
- 20mm thick polyurethane foam with bounce-back memory. Never bottom-out, wear down or harden.

Gel Pressure Care Products

GEL PRESSURE CARE PRODUCTS

The range of Hipac gel products are used in thousands of healthcare facilities around the world. They are manufactured from a high quality polymer gel that is tissue equivalent and emulates human skin, preventing patients from decubitus ulcers and pressure injuries.

Benefits of Hipac gel products include:

- Latex free for patient and staff safety.
- Leak proof – even if punctured. Hipac’s advanced polymer gel does not run and as a result has a superior lifespan.
- Impervious to body fluids and microbial growth.
- Easy to clean. Can be wiped down and disinfected with any hospital approved disinfectant.
- Won’t bottom out.
- Reusable.

Don't see the replacement pad you are looking for?

We have an efficient in-house design, manufacture and sourcing process in Australia, to ensure we can supply the correct mattress or pad to suit any medical device.

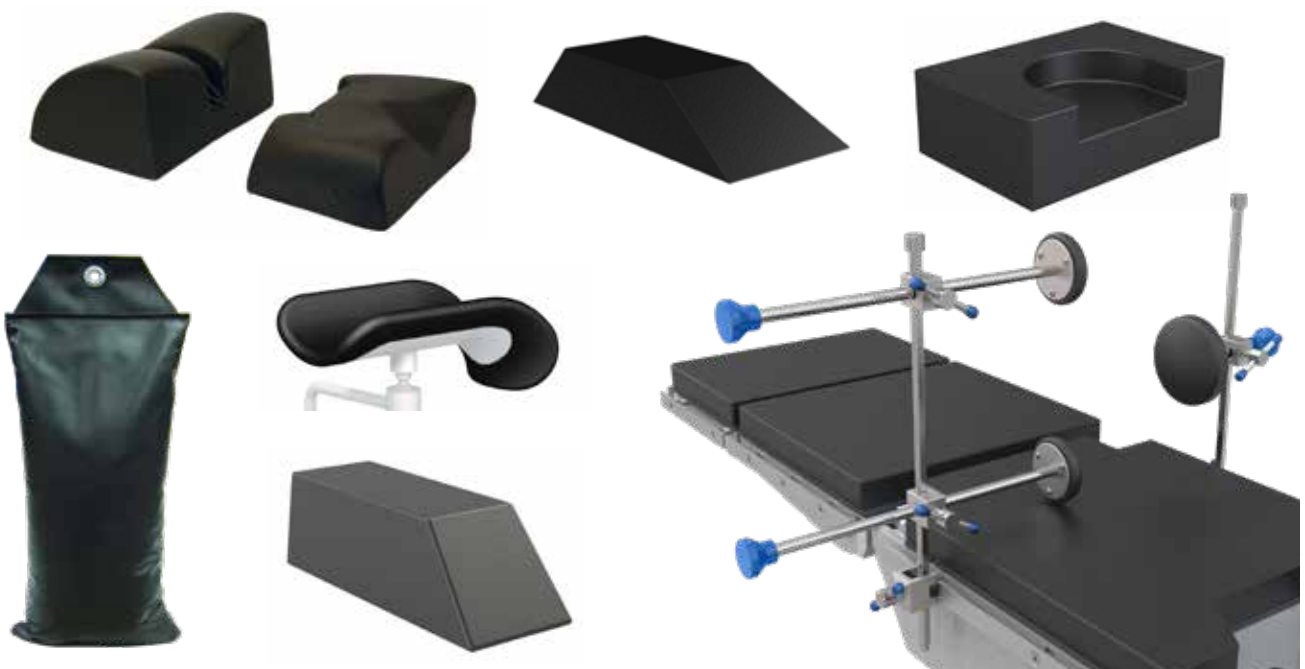

Our overall aim when creating or sourcing patient positioning equipment is to provide something that is perfectly adapted for it's intended use and environment. It's what we do best and in turn helps you provide the best care you can for your patients and colleagues.

Custom Options:

- Dimensions and shape
- Variety of vinyl colours
- Foam density and structure
- Labeling & identification tags i.e. OT#1, Ortho Store, Endo Suite
- Fixing type - non slip, hook and loop
- Air vents and relief valves
- Range of medical grade vinyls
- Seamless or chemically sealed stitching.

**Contact Customer Care on 1800 75 93 93
or email info@hipac.com.au to request a quote for a custom
replacement pad or mattress section, designed in-house by our
product specialists, to your unique specifications.**

Consider your linen and consumable costs today and create a durable, cleanable and reusable Custom Medical Pad.

Have a product you want to replace but not sure of it's name, size or product code?

Send us a picture via text message to 0499 372 662 or email us via info@hipac.com.au, along with your contact details and we'll help you identify your product.

TIP: With smaller products, lay them on the scale grid below for more accurate sizing.

General Information

How to Order

Official purchase orders must be placed via phone, fax or email. Contact details are as follows:

Email: info@hipac.com.au
Phone: 1800 75 93 93
Fax: +61 2 4822 7733

Payment Terms

Account customers:
Net 14 days on established accounts.

Non account customers:
Payment required prior to dispatch.

Payment Options

Pay by phone:
Mastercard / Visa. Please phone 1800 75 93 93.

Electronic Funds Transfer:
Account Name: Hipac Healthcare Pty Ltd
Bank: Westpac
BSB: 032 721
Account No: 307 316

Please fax or email confirmation to:
Fax: +61 2 4822 7733
Email: accounts@hipac.com.au

Product Changes

As we are continually innovating and developing our product range, designs and appearances of products may change without notice.

Colours shown in this catalogue are as accurate as design and printing process allow and may differ due to manufacturing processes.

No litigation or responsibility is taken for the use of Hipac supplied devices. The use of this equipment relies on the experience and knowledge of the clinical team to correctly position patients to reduce the risk of injury to patients and staff during surgical procedures.

Dimensions are accurate at time of printing and are subject to change without notice.

Hipac reserves the right to make changes in design, specifications, colours and models for the improvement of any product without notice. Images in this catalogue are for display purposes only and may not reflect the exact appearance of the product.

Shipping and Claims

Goods are shipped via Hipac's preferred logistics provider whenever possible. Charges will be prepaid and included on the invoice, unless otherwise arranged. Merchandise should be inspected on receipt and contact made with Customer Care regarding any damage or discrepancies. Damaged shipments must be noted when signing for packages and damaged packaging retained.

30 Day Return Policy

If you are not fully satisfied with your purchase, or it is not fit for purpose, you can return it within 30 days and it will be credited on return, following assessment. Returns exceeding 30 days may be considered but are subject to a 20% restocking fee. All returns must be in new, saleable condition. Custom equipment is not returnable. Delivery charges are the responsibility of the purchaser. All returns must be accompanied by a return goods authority document.

Please download and complete a Customer Returns Request Form from www.hipac.com.au/downloads before returning your product.

Disclaimer

Hipac recommends that anyone intending to rely on or use any products displayed in this catalogue should satisfy themselves about the suitability of them for their intended use and that all applicable health and safety standards are met. No responsibility is assumed by Hipac for any incidental or consequential damages resulting from the use of any products sold by Hipac.

Contact Customer Care with any questions you have about any of our products, services or ordering process.

Store your Ezi-Gauge here

HOW TO USE THIS GAUGE:

The Ezi-Gauge sizing template is an identification tool, designed to assist in determining the most suitable clamp, post, rail or accessory to suit the existing equipment in your facility.

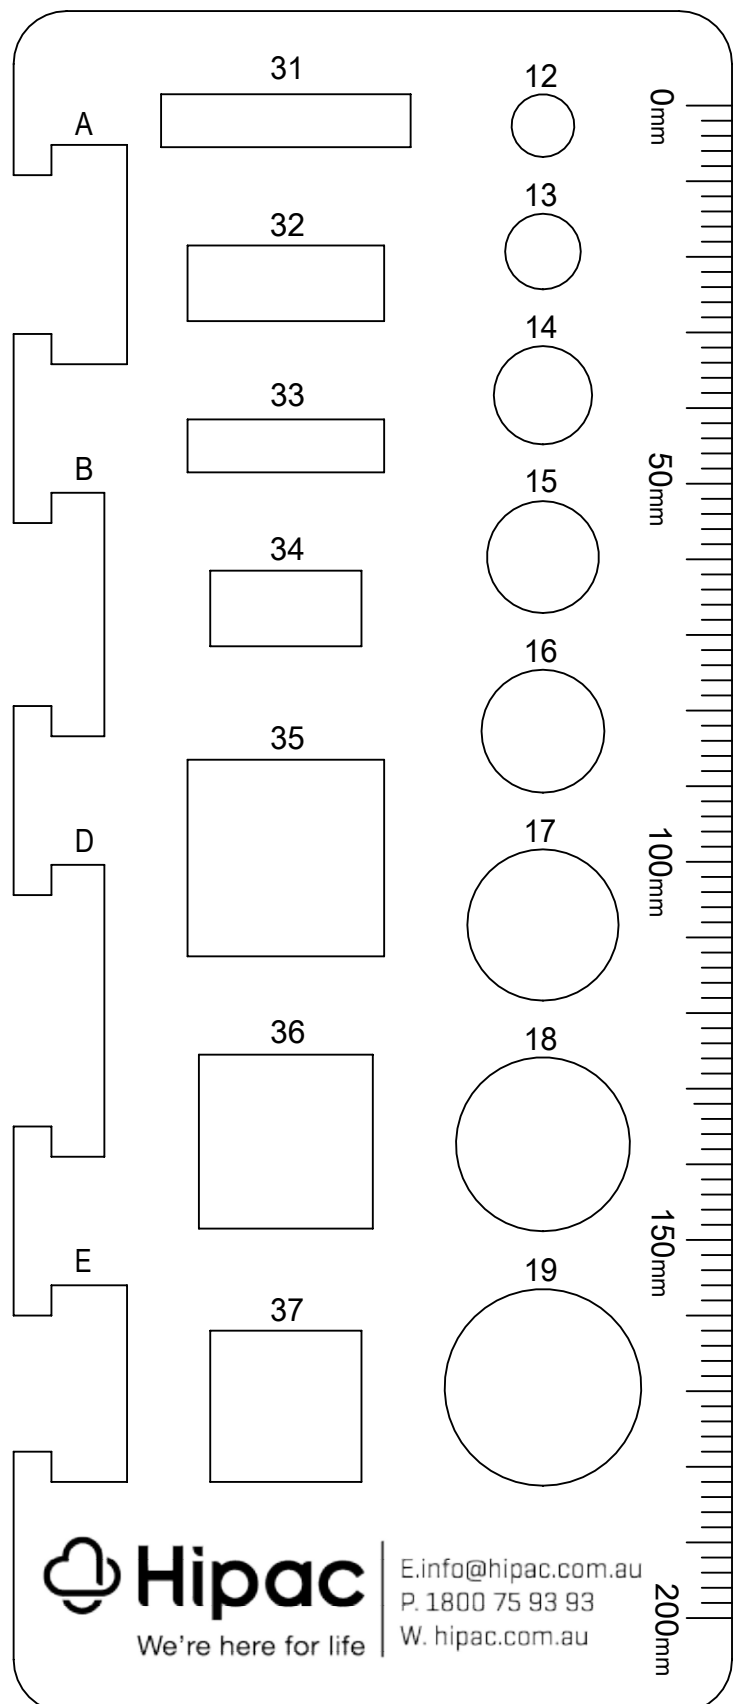

It also provides a guide to help you confirm the rail size on your operating table or surgical device.

Simply slide the gauge over your table rail or the accessory post to identify its size.

HOW TO MEASURE YOUR MATTRESSES FOR REPLACEMENT:

If you cannot find a mattress to suit your theatre table in the Replacement Mattresses Section on pages 88-93 of this brochure, contact Customer Care and request a mattress measurement form. Dimensions you will need include:

- Thickness of the mattress
- Length and width of each section
- Size, position and scale drawing or tracing of any cutouts
- Location and length of hook and loop strip that attaches to the table.

CAN'T FIND YOUR EZI-GAUGE?

Contact Customer Care on 1800 75 93 93 or via info@hipac.com.au to request a replacement.

ABOUT HIPAC

We are an Australian healthcare company that guarantees to stand behind all our medical products, both manufactured and imported, because we're here for the life of our products and clients.
