Materials

TPU [Approved for fluids]

Stackable

Healsafe Coffee Mug

Datasheet

Withstands very strong pressure and strain without losing original shape or breaking the handle.

Maintenance

The coffee mug is dishwasher safe and can be used in microwave ovens. [Please bear in mind that in comparison with ordinary mugs, these mugs might obtain a duller surface with time.]

Warranty

The product is to be seen as 'reusable'* with a limited life span through its design and choice of risk reducing material, therefore no warranty is applicable.

Sustainability

The coffee mug has a long lifespan. Recycling as plastic.

*'Reusable' plastic products are aimed to have a longer life span than ordinary disposable products. Dishwasher and microwave use is accepted, as well as mild detergents. However, we cannot guarantee maximum dishwasher cycles, microwave wattage, freezer or oven settings, since all machines operate differently.

ABOUT HIPAC

We are an Australian healthcare company that guarantees to stand behind all our medical products, both manufactured and imported, because we're here for the life of our products and clients.
