

## Healsafe Safety Cutlery - Orange

### Datasheet

#### Cutlery

*Suicide preventive cutlery designed to reduce self-harm and assault.*

- Self-harm and suicide resistant cutlery for challenging environments.
- Cutlery in durable and unbreakable plastics that cannot be sharpened and used as weapon.
- Withstands both microwave oven and dishwasher.

Cutlery with a plain and recognizable form for increased autonomy in the pursuit of a 'normalized' environment. The characteristic shape with recesses lessens the amount of material that can cause harm and be sharpened. The orange forks, spoons and knives are produced in a softer plastic with the specific purpose of lessening damage or self-injury from cutting or stabbing. Well proven for challenging environments, not least by the correctional services, where they actually are produced for work training and educational purpose.

Sold in packs of 25 pcs.

## Healsafe Safety Cutlery - Orange

### Datasheet

#### Technical Data

144865: L 197mm

144864: L 205mm

144866: L 197mm

144867: L 129mm

Designed and made in Sweden.

#### Materials

Polypropylene

#### Maintenance

Can withstand both microwave oven and dishwasher.

#### Warranty

The product is to be seen as 'reusable'\* with a limited life span through its design and choice of risk reducing material, therefore no warranty is applicable.

#### Sustainability

Recycling as plastic.

\*'Reusable' plastic products are aimed to have a longer life span than ordinary disposable products. Dishwasher and microwave use is accepted, as well as mild detergents. However, we cannot guarantee maximum dishwasher cycles, microwave wattage, freezer or oven settings, since all machines operate differently.

#### ABOUT HIPAC

We are an Australian healthcare company that guarantees to stand behind all our medical products, both manufactured and imported, because we're here for the life of our products and clients.
