

## Healsafe Plastic Glasses

### Datasheet

#### Plastic Glasses

- Durable and unbreakable glass.
- Designed specifically for challenging environments.
- Dishwasher safe.

Plastics are highly sensitive to: aging, UV radiation, humidity, temperature, drastic change of temperature and/or humidity. "Reusable" plastic products are aimed to have a longer life span than ordinary disposable products. Dishwasher and microwave use is accepted, as well as mild detergents. However, we cannot guarantee maximum dishwasher cycles, microwave wattage, freezer or oven settings, since all machines operate differently.

Plastics deform and regain form in different extents. Strong detergents, sudden changes in temperature and/or moisture, impact through force or careless handling will affect the product's life span. Strong pigments and oil e.g. from food can leave stains.

Reusable" plastic products do lose their strength/properties with time and shall continuously be overseen to not create risk, e.g. becoming brittle, due to above given circumstances and handling.

Sold in packs of 25 pcs.
