

Anti-Ligature Magnetic Safedoor System

Datasheet

Features:

The Hipac SafeDoor is constructed from a lightweight soft foam then coated with a resilient antimicrobial, stain resistant vinyl material designed to withstand daily patient and clinical use in hospital and mental health environments. By harnessing the natural forces of short range magnetism for its fixing points, it eliminates all anchor points usually associated with doors and hardware. This ensures that, under excessive load, the door separates from the door frame to which it's mounted leaving no remaining points of ligature - a highly essential safety feature.

Benefits:

An ensuite door with no known ligature risk makes the Safedoor a great choice in providing acceptable levels of privacy and dignity yet still addressing the risk of ligature. Designed with a strong focus on being lightweight for both service user and staff protection, this durable tear and stain-resistant solution is both waterproof and flame retardant as standard. Its external surface can be provided in a choice of colours or prints to suit the decor of the environment. These are simple to install, in most cases with a magnetic metal frame it's a simple as offering this up to the frame and allowing the magnetic hinge to attach.

Options:

Left hand or right hand mounted
Adjustable height and width to suit application
Colour/image of your choice

Specification:

The magnetic anti-ligature Hipac Safedoor for en-suites with vandal resistant, soft foam core as distributed by Hipac 02 4823 0000. Manufactured from flame retardant fabric, constructed using anti-pick, tamper resistant materials, and incorporating antibacterial formula to withstand vigorous daily use in hospital and mental health environments. The tear/stain resistant door is anti-static and will fall away from its magnetic fixing plates when subjected to an abnormal load such as a ligature attempt.

ABOUT HIPAC

We are an Australian healthcare company that guarantees to stand behind all our medical products, both manufactured and imported, because we're here for the life of our products and clients.
