

Reshaping the Future of Medical Waste

Revolutionize your waste disposal. Turn sharps and red bag waste into regular trash effortlessly, embracing a greener, more efficient future in medical waste management.

Introducing the TE-5000: Desktop Sterilization Technology

Eco-Friendly Waste Device

The TE-5000 is a revolutionary waste disposal solution, simplifying medical waste management and promoting a greener, more efficient future.

Using thermal energy, it swiftly transforms sharps and red bag waste into regular trash, making Regulated Medical Waste non-infectious.

Swift and Simple Disposal

With a processing time of less than 3 hours per gallon and an intuitive 3-button interface, the TE-5000 streamlines the disposal process, eliminating the need for costly hauling contracts and complex pickup schedules.

Sterilized Waste Bricks

By converting biohazardous waste into a non-infectious, solid block suitable for regular trash disposal, this system empowers medical practices to handle their own waste simply, safely, and in compliance with regulations. **Embrace a new era of waste disposal efficiency** with the TE-5000.

EXAMPLE CASE STUDY

Customer Success: 45% Savings + Fixed Spend Across All Locations

One of our new customers experienced an immediate cost-saving breakthrough by transitioning from traditional hauling services to the TE-5000. The transparent pricing and streamlined waste disposal process not only saved money but also empowered them to redirect resources toward enhancing patient care.

Before Onsite vs. After Onsite

Previous Hauling Program

- Several vendors
- Unnecessary storage of infectious waste
- Inflexible schedules
- Variable pricing
- Fuel charges and environmental fees

Onsite's Program

- Single vendor
- Centralized agreement
- Fixed and transparent pricing
- Immediate sterilization of infectious waste
- CO₂ emissions are reduced by 92%

How to Learn More

Discover how OnSite Waste Technologies can assist your healthcare facility in achieving excellence in medical waste management. Visit our website, follow our social media channels, or reach out directly for more information. We offer detailed consultations, webinars, and resources tailored to the unique challenges of medical waste. [Click here to learn more.](#)

Closing Remarks

In conclusion, the TE-5000 emerges as a game-changer in medical waste management, offering our customers unparalleled cost savings, transparent pricing, and a streamlined disposal process. Its innovative technology not only enhances efficiency but also empowers organizations to redirect resources toward critical aspects such as patient care. As we continue to champion excellence in waste disposal, the TE-5000 stands as a beacon of efficiency and fiscal responsibility, embodying a transformative approach to handling medical waste. Embrace a future where waste management is not just a necessity but a strategic advantage with the TE-5000.
