

Safedine Flexible Cutlery

Product Features

- collapsible self-harm resistant cutlery for challenging environments.
- tough and durable plastic, difficult to sharpen and use as a weapon.
- withstands at least 200 dishwashing cycles.

Safedine Flexible Cutlery is designed to provide a sense of normality while maintaining high security and safety properties. The characteristic shape with recesses reduces the amount of material that can be sharpened. The forks, spoons and knives are made from a flexible yet tough plastic specifically designed to prevent self-injury and harm, such as cutting or stabbing.

Safedine Flexible Cutlery is primarily intended for use with softer, processed foods and is a safe, functional, plastic alternative for challenging environments.

Sold in packs of 25 pcs.

Assortment
