Hipac

Quality products and solutions for operating theatres, mental health facilities and onsite waste management

Hipac is dedicated to positively impacting the healthcare industry by providing leading-edge solutions that foster a safe and comfortable healthcare experience.

Our Vision: Nothing should get in the way of great care.

Our Mission: We help healthcare providers deliver care without compromise.

Our Purpose: We create the conditions that great care depends on.

We design, manufacture and source advanced products and services that meet the evolving needs of patients, healthcare professionals and healthcare service providers.

Since 1986, our product solutions have been delivered with personalised service and a commitment to delighting our clients. Our success is due in part to our collaborative approach with customers and industry experts, allowing us to deliver projects of any size.

At Hipac, we have the expertise and experience to deliver premium solutions along with competent, trustworthy advice. Proudly Australian and with customers and strategic partners both nationally and globally, Hipac goes above and beyond to create environments where healthcare professionals can work productively, safely and efficiently to achieve the best possible patient outcomes.

We're here for life

“We’re now a large Australian company, still guided by original family values”

Phil Sneddon, Founder

Since 1986, Hipac has been manufacturing and importing high quality operating theatre solutions and ‘at risk’ patient protection products. Our technical expertise and dedication to meeting our clients’ needs has helped us grow to become one of Australia’s leading suppliers and manufacturers of advanced healthcare products and services.

Hipac began as a father and son business, building and refurbishing operating tables in Sydney. Today, the business is still owned by one of its original founders, Philip Sneddon. The inspiration for Hipac came when Philip, at just 21 years old, visited a hospital in the USA. After being impressed by the efficiency of the surgical theatres and collaboration between disciplines, Philip recognised an opportunity to improve patient care in operating theatres back home. He learnt the skill of refurbishing operating tables...and the rest is history.

Now, every team member plays a vital role in the business, sharing Phil’s dedication to creating environments where nothing stands in the way of patient care, across Australia and internationally.

Our values

Get to the truth
We ask, listen, check what we know and speak openly so we can deal with what is actually happening.

Do it right
We make sure we understand what needs to be achieved, take care in doing it and check the result before we call it done.

See it through
We stay involved, follow up and make sure the intended result is achieved.

Make it better
When we see something that could be done better, we speak up, make a change and learn from the result.

What sets Hipac apart is our holistic approach

At Hipac, we recognise that every customer is unique, and every journey is different. What remains constant is our commitment to providing you with the best possible service and support every step of the way.

Phil Sneddon, Hipac's Founder, explains:

"We're agile, adaptable, reliable, innovative, and collaborative. By integrating these qualities, we ensure tailored solutions that address every challenge, delivering exceptional outcomes for our customers."

With a wealth of experience, skills, and expertise, Hipac delivers solutions that are designed to meet your unique requirements—no matter how complex—so you can operate more efficiently, confidently, and sustainably.

Services you can count on every step of the way

Planning and design

We take the time to understand your requirements, provide a consultancy approach, collaborate on designs, and develop a comprehensive plan to ensure every detail is covered.

Product selection and supply

We'll work with you to select, review, procure, and manufacture products that deliver on quality, functionality and aesthetics to reach your end goal.

Installation

Our experienced and highly qualified teams ensure everything is executed to exacting standards.

Education and training

To maximise the benefits of your new environment and equipment, we provide tailored training programs that give your teams the knowledge, skills, and confidence they need to excel.

Service and maintenance

Our comprehensive service programs are designed to maintain the quality and integrity of your new investment, giving it maximum longevity.

OPERATING THEATRES AND SURGICAL SPACES

Helping you operate at a higher level

Hipac understands the challenges surgical teams face in achieving optimal patient outcomes. We know that operating theatre efficiency and safety rely on quality equipment and skilled staff. That's why we offer a wide range of operating tables, medical pendants, lighting, digital integration, and modular solutions to enhance performance and ensure a safe, efficient theatre.

- Operating theatre tables
- Medical services pendants
- Lighting
- Digital integration
- Modular solutions
- Patient positioning products
- Clinical furniture

Operating theatre tables

Prioritising the needs of our end-users, our range of operating tables ensures that the challenges experienced in an operating theatre can be successfully managed. Our portfolio of tables helps remove risky patient movements and provides better access for surgeons during surgery.

Medical services pendants

Crucial for the modern operating theatre, medical services pendants provide the flexibility of positioning required to cope with the range of procedures conducted today. No matter the patient positioning required, the procedure or environment, high quality medical pendants allow for a clutter-free surgical environment and precise positioning of lighting and equipment to suit each patient's needs.

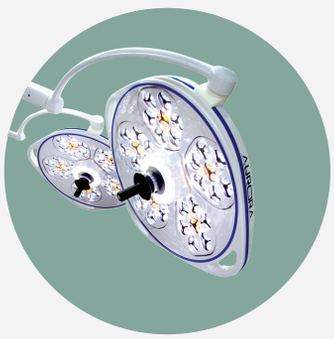

Digital integration

Bringing together hardware and software technology for modern medical solutions, digital integration ensures rapid communication and data sharing to achieve a faster, more streamlined approach to diagnosis and treatment that is proven to improve patient outcomes.

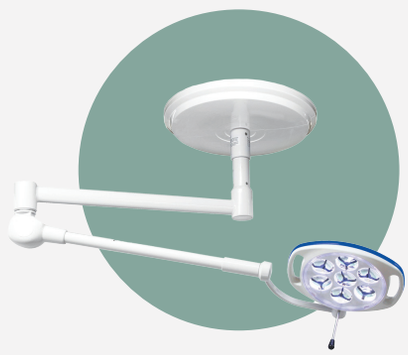

Lighting

In surgical environments, reliable lighting is essential. It simplifies workflow, reduces support staff workload and saves valuable time during procedures. In modern, minimally invasive procedures where accurate imaging is crucial, sophisticated and dependable lighting solutions can improve patient outcomes. Hipac's lighting solutions are engineered to provide healthcare professionals with improved performance and convenience.

Modular solutions

Hipac's modular solutions are pre-fabricated designs tailored for hospitals and healthcare environments, offering flexibility and durability with superior anti-bacterial performance.

- Modular walls
- Modular doors
- Modular accessories
- Touchscreen control panels

Patient positioning products

Hipac's patient positioning products are designed to provide secure support for patients during surgical procedures of all types. Our extensive range of accessories ensures that there is a suitable solution for every surgical position and specialty, including tilt, flex, beach chair, and Trendelenburg.

All our patient positioning solutions are manufactured with care to maintain hospital-grade hygienic standards and assembled with precision to maintain optimal performance throughout the product lifecycle.

Anaesthetic supports	Head and neurology supports
Arm and hand supports	Table clamps
Bariatric supports	Orthopaedic supports
Body supports	Replacement mattresses and pads
Foot and leg supports	Restraints and fasteners
Gel products	

Clinical furniture

Hipac offers a range of clinical furniture crafted from high-quality, medical-grade materials. Our stainless steel products are predominantly manufactured in Australia, enabling us to maintain stringent production standards and ensure timely delivery. Some products are available exclusively for projects and bulk orders.

- Stainless steel tables, trolleys and carts
- Medical and step stools

MENTAL HEALTH FACILITIES

Designed for patient safety, security and recovery

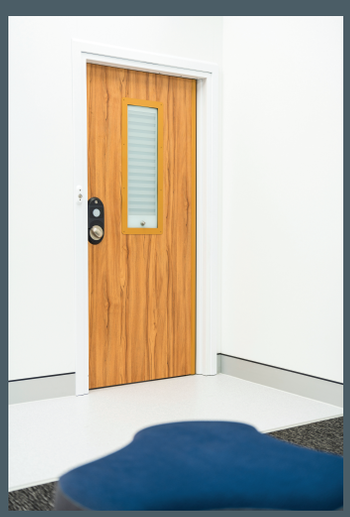

As Australia's leading supplier of mental health safety products and award winning solutions, Hipac have been dedicated to supporting mental health professionals and enhancing the well-being of consumers in mental health and correctional facilities.

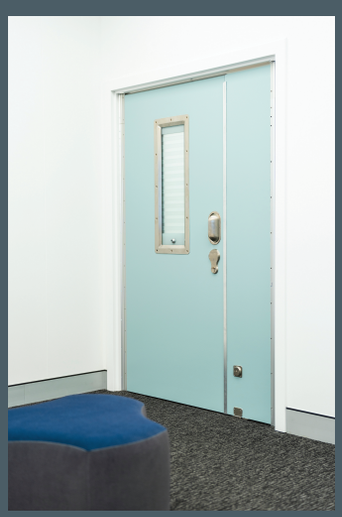

Through collaboration with clinical experts, international suppliers, and people with lived experiences, Hipac has developed solutions to reduce risk and harm and promote recovery and normality.

- Doorsets
- Door hardware
- Vision panels
- Safety furniture
- Curtains and blinds
- Bathroom and bedroom product
- Cutlery, tableware and other harm reduction products

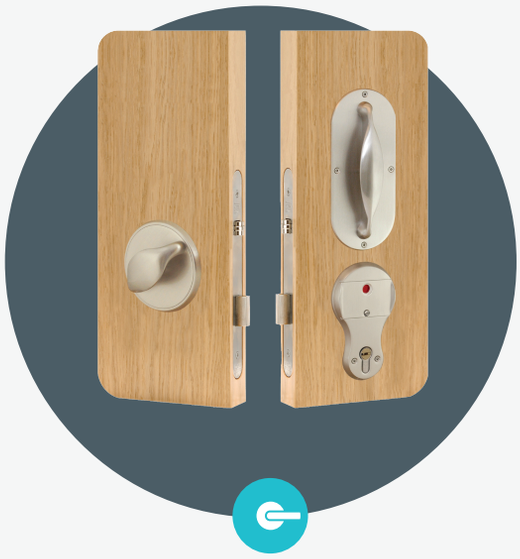

Doorsets

Hipac has a range of anti-ligature and anti-barricade bedroom and bathroom doorsets which have been designed in collaboration with clinicians, architects, builders and people with lived experience. Innovative designs that have undergone rigorous and repeated testing have resulted in doors that offer the highest level of safety and reduced risk to patients and staff alike. Through innovative designs and extensive testing, we have developed doors that ensure the highest level of safety, significantly reducing risks for both patients and staff.

Door hardware

Hipac's door hardware provides safe and durable fittings for facilities throughout Australia and New Zealand. We offer a variety of globally sourced and in-house manufactured options, such as hinges, door top alarms, door stops, and more.

Bolts and catches	Hinges
Closers	Ligature alarms
Door and frame stops	Locksets and handles

Vision panels

The Hipac range of vision panels is designed to meet the diverse needs of various environments and has been tried and tested to ensure security and dignity for both patients and staff. Offering quiet, manual operation and a clever alignment system, our vision panels provide different levels of visibility depending on the needs of the environment and are user friendly, requiring no power source or wiring.

Safety furniture

Built to be robust, ligature resistant and harm resistant, our furniture range is carefully crafted to withstand challenging environments. Seamlessly blending strength with comfort and modern design, our furniture adds style to any space through contemporary colours and textures. It offers the perfect combination of safety, durability, and aesthetic appeal.

- Bedroom
- Seating
- Tables

Curtains and blinds

Our ligature-free curtains and blinds are crafted from high quality materials, ensuring both durability and longevity. They are designed to allow patients to control light, fostering a sense of independence and normality.

Bolts and catches	Hinges
Closers	Ligature alarms
Door and frame stops	Locksets and handles

Bedroom, bathroom and ensuite products

Hipac's bedroom, bathroom and ensuite products provide an added layer of safety for mental health facilities. Our products are designed to reduce the risk of harm without compromising the functionality of these spaces. With our anti-ligature range, patients and clinicians can feel assured of their safety while maintaining their privacy.

Bathroom essentials	Safety clocks
Coat and towel hooks	Shelves
Dispensers	Tapware and sanitaryware
Grab rails and hand rails	Toliet roll holders
Mirrors	Towel and wardrobe rails

Cutlery, tableware and other harm reduction products

Our tableware is constructed using durable and unbreakable plastic with specific material properties that minimise the potential of creating sharp objects. This harm resistant tableware includes a selection of glasses, plates, and cutlery, all essential for care settings.

TOTAL ROOM SOLUTIONS

We'll put every piece together for total peace of mind

With a single point of contact, Hipac delivers tailored solutions:

- Constructing small or large health spaces
- Streamlining processes
- Simplifying project complexity
- Enhancing cost control

Multiple pieces.

One complete solution.
